## DETAILED ACTION

### Summary

On April 27, 2006, the Applicant resubmitted an appeal brief. After holding an appeals conference, prosecution has been reopened.

### *Allowable Subject Matter*

Claims 1-29 and 39-56 are allowed.

Claims 33 and 38 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 30-32 and 34-37 are rejected under 35 U.S.C. 102(e) as being anticipated by Oviatt (5,927,279).

Oviatt discloses an eye patch usable with eyeglass frames comprising a flexible body to be fastened to at least partially cover a front of the eyeglass frames to substantially block both frontal and peripheral vision of an eye and at least one fastener to secure the flexible body to the frames (fig. 1-3 and col. 2, lines 58-65) and the body is

Art Unit: 3691

adapted to at least partially extend over a lens sock of the eyeglass frames and along a side of the arm of the frames (fig. 1-3).

**Conclusion**

In view of the Appeal Brief filed on April 27, 2006, PROSECUTION IS HEREBY REOPENED.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing below:
